This one and half-day professional development workshop teaches participants how to apply the provisions of the Americans with Disabilities Act (ADA) to pedestrian facilities in the public right-of-way (PROW). The Association of Pedestrian and Bicycle Professionals (APBP) and the US Access Board collaborated to produce this recently updated course. The 7 modules include the following topics:

- Pedestrians and their Environment
- Laws, Regulation, Standards and Policies
- Accessible Sidewalk Design
- Curb Ramps
- Crossings and Intersections
- Pedestrian Signals
- Maintaining Accessible Features and Temporary Traffic Control

Nationally recognized instructors:

- Michael Ronkin, Oregon DOT (retired)
- Scott Windley, US Access Board

*Professional development credit available:
APA, ASLA, LAPELS*
