**Disclaimer:** The data herein, including but not limited to geographic data, tabular data, analytical data, and other data, is provided as is, without warranty of any kind, either expressed or implied, including, but not limited to, the implied warranties of accuracy, reliability, and fitness for a particular purpose. The entire risk as to the quality and performance of the data is assumed by the user. The user shall be responsible for any damage or misrepresentation caused by, in connection with the use of the data or as a result of changes to the data caused by system providers or other transformations or conversions, nor is there any responsibility assumed to maintain the data in any manner or form. The data have been developed from the best available sources. Although efforts have been made to ensure that the data are accurate and reliable, errors and omissions may occur. The user shall be responsible for determining the accuracy, reliability, and fitness for a particular purpose of the data and for determining the appropriate use of the information with respect to possible errors, omissions, misstatements, inaccuracies, and other circumstances specific to the data. The user shall be responsible for understanding the accuracy limitations of the data provided herein. The burden for determining the accuracy, reliability, and fitness for a particular purpose of the data and for determining the appropriate use of the information shall rest with the user. The user shall refer to the accompanying metadata for a description of the data and data development procedures. Although these data have been processed successfully on computers at the RPC, no guarantee, expressed or implied, is made by RPC regarding the use of these data on any other system, nor does the use of distribution constitute or imply any such warranty. Distribution of these data is intended for informational purposes and should not be considered authoritative for navigational, engineering, legal and other site-specific uses.
