### Summary

The Metropolitan Transportation Plan (MTP) is the chief legal document reflecting the resources, the fundamental planning process, and the selection of projects for the region. This MTP describes the long-term transportation needs and goals over the next 30 years, FY-2019 to FY-2048.

### Description

The MTP is a 30-year forecast of transportation improvements and projected funding in the MPA. It incorporates policy considerations and related long term impacts. Discussions with parish officials and planning departments encompass land use changes, population growth and density patterns, and commercial and residential zoning questions. Any effects achieved or desired, resulting from improved Transportation System Management, are also carefully included when preparing the MTP. All regionally significant projects are identified in the plan regardless of their funding source; and in many cases, projects are funded with combinations of state, federal, and local funds. The Highway and Transit elements of the MTP are divided into three tiers that correspond to expected implementation dates. Tier I of the MTP is also the TIP for fiscal years 2019-2022. The TIP for the Slidell Urbanized Area is therefore a biennial update of the first four years of the MTP. This provides an immediate baseline for upcoming projects and implementation, with emphasis on the first two years, while years three through four give an outline of projects in the pipeline. It is the opinion of the RPC that the inclusion of these future projects is warranted to best inform all stakeholders well in advance of potential start dates. No project will be accepted into the annual TIP unless it is in accordance with the policies, goals, objectives, strategies, or projects in the MTP. Tier II projects are those improvements that are in the planning and development stages between the fiscal years 2019-2031 that are expected to advance towards implementation based on funding availability. Tier III projects are longer-range projects, typically complex to implement (fiscally, environmentally, etc.) and "illustrative" projects that are deemed necessary but are as yet without an identified funding source. Metropolitan Transportation Plans are adopted by the Regional Planning Commission (RPC). They are prepared cooperatively by the RPC, acting in its legal capacity as the Metropolitan Planning Organization for the New Orleans urbanized area, and Louisiana Department of Transportation and Development (LaDOTD), and affected transit operators. MTPs consist of lists of intermodal transportation projects which are being advanced toward construction over the thirty-year period, FY-19 to FY-48.

WHEN THE PROCESS OCCURRED **2019-01-01**

DESCRIPTION

This layer was created by the New Orleans Regional Planning Commission based on projects included in the MTP 19-48 report, produced in accordance with the Federal Highway Administration regulations. Features were digitized based upon road segment descriptions provided by the Louisiana Department of Transportation and Development.
