

## ObligatedProjectsFY19\_RPC\_2019

Shapefile

Tags

Regional Planning Commission, Obligated Projects, FHWA

### Summary

This layer illustrates transportation projects financed in part by the Federal Highway Administration (FHWA) funding sources and FHWA-approved between the Federal Fiscal Year 2019 (FY19 defined as occurring between calendar dates of October 1, 2018 and September 30, 2019) within the Regional Planning Commission (RPC) Metropolitan Planning Areas (MPA) of Mandeville-Covington, New Orleans, Slidell, and South Tangipahoa. This layer was created as an additional product for the RPC annual Obligated Projects reporting process.

### Description

The FAST Act (23 CFR 45.334) requires that four MPAs, in coordination with the state and public transportation operators, annually develop a listing of projects for which federal transportation funds were obligated in the preceding program year. An obligation refers to the funding commitment made by the federal grantor agency (Federal Highway Administration (FHWA) or Federal Transit Administration (FTA)) to pay the federal share of a project's capital or operating cost.

The RPC has worked cooperatively with the Louisiana Department of Transportation and Development (DOTD) and the region's transit properties in preparing the Annual Listings for each of the MPAs housed at the RPC for Federal Fiscal Year 2019. To aid ease of reference and avoid duplication of efforts this report includes the Listing for each MPA in a single document. The Listings include projects obligated from October 1, 2018 to September 30, 2019. Projects are organized by MPA, parish, and state project number. For each project, the following information is provided: a brief description of the project (e.g., pedestrian path, overlay, reconstruction, etc.), project sponsor, bid letting date, federal funding source, total cost, federal funds programmed in the TIP, and federal funds obligated. Appendix A includes the Federal Transaction List for FFY19 provided by DOTD for all MPAs served by the RPC. This list was used to derive transaction dates and federal funds spend during the fiscal year.

This layer illustrates the location of highway transportation projects with funding obligated (approved for spending) for the Federal Fiscal Year 2019 (FY19), was created as an additional product for the RPC annual Obligated Projects reporting process. It should also be noted, this layer does not represent all of the obligated funding federally-approved for FY19. Projects that were not mapped include project types such as lane-painting, signage installation, and/or unknown location projects. For a full list of FY19 Obligated Projects, please consult the RPC report found here:
