### Summary

Household income designations by US Census American Community Survey by block groups within Louisiana. Thresholds calculated within ESRI Model Builder by the RPC for each parish, and flags set for block groups within each parish over the threshold for that parish.

### Description

ACS data files used for Household Income, ranges of household income and Aggregate Income: B19001, B19019, B19025 Universe is Households. Flags for each theme based upon the parish threshold for that theme. Block groups are flagged when over the parish percent (the threshold) for theme. The Median Household Income Flag designation is for each block group within the theme over the parish threshold for Median Household Income. the prefix Parish\* used for an attribute designates the parish threshold.

### Credits
