ANNUAL LIST OF OBLIGATED PROJECTS

FEDERAL FISCAL YEAR 2021

Background

The Regional Planning Commission: The Regional Planning Commission (RPC) for Jefferson, Orleans, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany and Tangipahoa Parishes is a board of local elected officials and citizen members appointed to represent the public on regional planning issues. The board is supported by a staff of professionals with a broad variety of expertise, including transportation, land use, economic development and environmental planning as well as data management and geographic information systems (GIS).

One of the RPC's primary roles is to house the Metropolitan Planning Organizations (MPO's) for four separate Metropolitan Planning Areas (MPA's): Mandeville-Covington, New Orleans, Slidell, and South Tangipahoa. The RPC's Transportation Policy Committee (TPC) has final decision making authority over MPO activities, including goal and priority setting, project selection, and programming federal transportation funds. TPC membership consists of all RPC members as well as additional elected officials and representatives from major regional transportation interests.

About this Report

The FAST Act (23 CFR 45.334) requires that MPO's, in coordination with the state and public transportation operators, annually develop a listing of projects for which federal transportation funds were obligated in the preceding fiscal year. An obligation refers to the funding commitment made by the federal grantor agency (Federal Highway Administration (FHWA) or Federal Transit Administration (FTA)) to pay the federal share of a project's capital or operating cost.

The RPC has worked cooperatively with the Louisiana Department of Transportation and Development (DOTD) and the region's transit properties in preparing the Annual Listings for each of the MPO's housed at the RPC for Federal Fiscal Year 2021. To aid ease of reference and avoid duplication of efforts this report includes the Listing for each MPO in a single document. The Listings include projects

obligated from October 1, 2020 to September 30, 2021. Projects are organized by MPA, parish, and state project number. For each project, the following information is provided: a brief description of the project (e.g., pedestrian path, overlay, reconstruction, etc.), project phase for which funds were programmed and obligated (e.g., Right of Way, Construction, etc.), project sponsor, federal funding source, federal funds programmed in the TIP, and federal funds obligated. All data provided is for the specific project phase listed (e.g., Right of Way, Construction, etc.) and not for the entire project.

All federal obligation amounts were obtained from the Federal Transaction List provided by DOTD on October 11, 2021, and reflect obligations made by the state as of that date. The funding amounts provided by DOTD in the Federal Transaction List are included in Appendix A. The RPC's Annual List of Obligated projects does not include any projects for which there were no federal funds obligated, or for which there was a negative obligation (i.e., de-obligation) of funds.
